Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

These are the most comparable properties based on land size, position and recent sales activity. However, with the new Activity Centre zoning and the unique nature of the property being two adjoining blocks, it offers a larger frontage, potential for higher-storey development and rear lane access. This combination makes the property highly unique and difficult to directly compare with recent sales.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
