Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

The property is situated on Residential Zoned land and currently contains an existing restaurant. Due to its zoning, the property offers a range of potential uses, including redevelopment for residential purposes, a mixed-use development with ground-floor retail/commercial premises and residential dwellings above, or refurbishment and continued operation as a restaurant. As the property does not fall neatly into the standard categories of a house, unit/apartment or vacant land, there is no single property type option that accurately reflects its characteristics. The price shown is the vendor's nominated asking price.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
